One if by land

Two if by sea

Three if by injection that they force into thee

All good people

Time to rise

Sound the alarm across the country side

The Lab Coats are coming

The Lab Coats are coming

The Lab Coats are coming

But We Do Not Consent

We will not comply

In the land of the free

cradle to grave

We Do Not Consent

We will not comply
Destroy the proof
Bury the youth
Try to hide and censor truth
We Do Not Consent
We will not comply
Law of exclusion
Based on illusion
Must have forgot about the constitution
We Do Not Consent
We will not comply

Capital to Capital
State by State
Got a lotta freedoms
that they're coming to take
Death to religion and our personal beliefs
Take informed consent
there will be no relief
Civil liberties all under attack
Where in the world are the democrats
No Senator, Assemblyman or Governor
They all bow down to Pharma
And they follow the herd
But We Do Not Consent
We will not comply

All the races
colors and creeds
Cannot keep us on our knees

We Do Not Consent

We will not comply

Do no harm

must disarm

all them animals on the farm

We Do Not Consent

We will not comply

Your mandatory

bigotry

Don't tread on me with your tyranny

We Do Not Consent

We will not comply

You are the needle

we are the scar

injecting poisons

you push in to far

committed no crime

Don't need your immunity

isolated people

we fight to be free

Realize

claiming it's a fallacy

but the momma know the baby

better than anyone else

Pharma ain't my momma

Pharma ain't a momma

Pharma ain't a momma so I'll never consent

We Will Not Comply

Turn Your Blind Eye

Am, Dm Reggae 4 beats each chord no change

Turn your blind eye
Turn your blind eye -Walk on by
Don't wanna know why the momma cry
Turn your blind eye -Walk on by
Don't wanna know how the baby died
Turn your blind eye-turn your blind eye
Turn your blind eye-turn your blind eye
Turn your blind eye you might see
All we wanna do is live here peacefully
And be free
Like we're somebody
Like everybody
Free to be in our community
With no bigotry
Comin' down on me
And all of these beautiful families
Yeah we wanna be free
Is that so hard to see
Yeah we wanna be free
Is that so hard to see

Turn your blind eye
Turn your blind eye -Walk on by
Don't wanna know about our history
Turn your blind eye -Walk on by
Don't wanna see all them injuries

Turn your blind eye turn your blind eye
Turn your blind eye turn your blind eye
Turn your blind eye you might see
All we wanna do is just be free
Eternally
With sovereignty
Integrity
And autonomy
Constitutionally
Inalienably
Is that so hard to conceive
in the land of the free
Is that too hard to believe
Yeah we wanna be free
Is that so hard to see
Yeah we wanna be free
Nobody seems to care to share the despair goin' on around here
As another baby disappears into the atmosphere it's clear
Nobody want to hear
They'd rather leer and jeer and sneer
Livin' in fear
Yeah they're livin' in
Fear of the mother,
Fear of the other
Fear of the sister
Fear of the brother
Fear of the mother,
Fear of the other
Fear of the father yeah
Fear of the brother

Fear of the mother,
Fear of the other
Fear of the baby, yea
Fear of the brother
Fear of the mother,
Fear of the other
Fear of the neighbor, yeah
Fear of the brother

Yeah we wanna be free

We the People

Reggae style: **Bm, D** or **Bm**

Madam Speaker I do believe
We've got ourselves a quorum
But there's so many people here
gettin' kinda hard to ignore em
They're chanting in the halls
surrounded the Capitol
Stomping on the Staircase
and they're bangin' on the walls
and they keep singing
We the people
We the people
We the people
We the people Here to kill these Bills

Yeah bit by bit
One by one
Right by Right
Till they're all gone
Bill by Bill
Year to Year
Till all the freedoms
disappear
They're out there in streets
Standing in the sleet and snow
Thousands gathered day and night
Roaring up through the window

We the people

We the people

We the people

We the people Here to kill these Bills

We the people

By the people

For the people

We the people Here to kill these Bills

Am **Bm** / / / |

You declared war against the People

Committed treason selling our Rights away

Looks like the Revolution might need a sequel

When you try to keep the people Separate and Unequal

Bm D or Bm only

Well, Up in the Balcony

Gonna be no Civility

Not beggin' pretty please

Demanding Liberty

State by State

Shore to Shore

People rising

Mothers locked to state house door

Shouting down on chamber floor

Put a Spell on You

Am / / / | **C** / / /

Here come all the actors
This play has all been cast
Do not recognize them
Do not know the past
Wasn't so long ago
A different tale was told
The ancient script
Has been rewrit
New products to be sold

Chorus

D7

Yeah they got you where they want you

D7b5/Ab / / / / /

They put a spell on you

Am / / / | **C** / / /

Scared by these illusions
This new spooky ad campaign
Everywhere you turn
It's always pounding in your brain
Do not go to beaches
Do not breathe the ocean air
They stole six trillion dollars
Just to show how much they cares

D7

Yeah they got you where they want you

Chorus

D7b5/Ab / / / / /

Am / / / | **C** / / /

Lockstep marching doctors
With their dangling stethoscopes
Their science they claim
The final solution
The only human hope

Keep you from your neighbors
All muzzled up in the mask
You'd take 'em off
Cause you got no cough
But you don't know who to ask

Chorus

D7

Yeah they got you where they want you

D7b5/Ab / / / / /

They put a spell on you

Outro

Am

One thing is crystal clear
Can not live in fear
'Cause if you do
The Human Spirit
Will surely
Disappear....

Politicians pitting People

Against that line in blue

Pretending they have special rights

That don't apply to you

Given Shiny badges

Tasers and a gun

Now go collect that revenue

From your neighbors son

Corrupt world leaders

With no morality

Claim there is no natural law

Just their authority

Where do our rights come from?

They do not come from man,

They come from the Creator

It's the law of the land.

When there is no victim,

there can not be a crime.

So they claim the victim is the state,

but the state's a fiction of the mind.

When Evil aggresses on

life liberty and property,

join with the people

Protect these rights

roll in like the Cavalry.

But you just can't get away

Next year for sure

You'll have some fun

You'll really get around

But how far

Can you travel

When you're six feet underground

You do not go
To nightclubs no
You just don't care to dance
You ain't' got
Any time
For moonlight or romance
The only thrill
You ever get
Is putting dollar bills in a stack
But when you kiss
Them dollar bills
They just don't kiss you back

Wings Flappin'

Intro

B or Bflat, maybe A

I got my wings flappin'
A million miles an hour
But I just ain't goin' nowhere
Hoverin' in the air
Floatin' like a flower
Blowin' in the breeze without care

All the leaves on the branches will eventually fall
Just a matter of time it's inevitable
That doesn't mean you should not plant
Yeah we should not grow
There's room for us all in this light
To shine and to show
First rhythm we feel
Moves our lives to start
Babies learn to dance
To the sound of mamma's heart
Little feet commotion
Sure to bring us a smile
For we all come and we go
In such a short while

Like catchin' water
with a net
Just livin a life
without regrets

Ain't folded yet
So place your bets
Cause pretty soon
I'm gonna ride off
Into the sunset

Every good song you know
They come to an end
It's a simple fact you just can't bend
Don't put away your instruments
Take 'em out let's write
For the world needs a little more music
To get through the night

Oh, I miss your smiling face
Don't you know I miss your sexy grin
Oh, I miss your laughing dimples
and all the freckles on your chin

Oh, I miss your perty nose
Don't you know I miss them supple lips
Oh, I miss the way you whistle our favorite tunes
and blow me a kiss

Said it only be
A couple weeks or so
But that couple weeks you know it
Happened so long ago
Are you under mind control
A black magic attack
If I can't break this spell
I might never see you back

Oh, I miss the way you blow....bubbles
Don't you know I miss the sassy way you chew your gum
Oh, I miss the way you pretend to get angry
And stick out your tongue

Oh, I miss those pearly whites
Don't you know I miss the way you clearly speak
Oh, I miss how you pull me nice and tight
As we're dancing cheek to cheek

Oh, I miss your breath upon me... whispering...

F#m / / / / | / / / / | **A** / / / | **C#7** / / / / |

We Are the Embers
of the Flame of Liberty
Thought we were snuffed out
We were only Smoldering
Now the winds they are blowing
Gonna lift these cinders free
Gonna set this world on fire
With that spark from Liberty

We will rise
In towns near and far
We know who we are
Your days are numbered
It's written in the stars

All you devils
At the levers of control
You can never own our spirit
We will never sign away our soul

Stand in the night
Stoke that fire light
Make it burn bright
To ignite
The sight
Of Freedom taking flight

Across the sky
See these sparks they fall like rain
Into the hearts of men
Brush fires of Liberty
Burst into flame

Remember...

Without liberty, it's all slavery.
